Subject: MLPA Proposal 2 JD

Sir/Madam:

Kindly consider not enacting measure Proposal 2 (JD). Closing Sea Ranch is one of the few places along the coast that is already semi-protected (by virtue of the miniscule public parking lots available there). Leaving open the Stewarts Point area makes no sense -- the public has no access to that area from the road.... and very, very few people can afford boats or the gas to motor the long distance to access Stewarts Point by boat. Stated differently, Stewarts Point is already, de facto, a virtual preserve by virtue of its access constraints.

Please do not take away one of the few last well stocked abalone areas by denying access to Sea Ranch.

Thank you for your consideration.
